

# FODOR LÁSZLÓ-CARLOS

## About Me

I am a 22 year old graduate of Sapientia Hungarian University of Transylvania. I like learning about new things, puzzles, challenging myself so I can push myself toward further heights. And after 10 years of playing football, I also realized that I am a pretty good team player.

## LANGUAGE

- Hungarian (fluent)
- English (advanced)
- Romanian (fluent)

## EXPERIENCE

### Student

**Sapientia Hungarian University of Transylvania [EMTE]**  
**2021-2024**

Having studied programming in high school, it was always my plan to follow this path. After the first year, my eyes opened up to the many possibilities in this area of expertise. I never regreted going down this path.

### Mentee

**Codespring**  
**2022-2024**

I signed up for the mentorship programme to gain insight into how the technologies I learned about at university can be applied into well thought out projects. I also learned about the essentials of teamwork, communication and perseverance.

### Intern

**Codespring**  
**Summer of 2023 (10 weeks)**

I got the chance to join as an intern during the summer. In 10 weeks I learned to use React-Native, Firebase as a backend, git for project management, and my colleague and I followed the Agile workflow. It was a short, but effective insight into the life of a programmer.

**Scientific Student Conference**  
**2024**

I didn't miss the opportunity to present my work at this conference. Thanks to all the other times I held a presentation, I feel like I've gotten better at it. It paid off because my colleague and I won a special prize for the presentation afterwards.

### Intern Reea (2 weeks)

In the two weeks, I had available, I created a weather app project using Flutter and Dart programming language. It was a great learning experience, thanks to the two mentors I had during this time.

EDUCATION

Bolyai Farkas High School

Maths-Informatics-Intensive Informatics profile  
2017-2021

Hungarian University of Sapiientia [EMTE]

Software Development  
2021-2024

Software Development (Masters degree)  
2024-2026 (In Progress)

ADDITIONAL INFORMATION

- Driver's license: B

SKILLS

- Agile workflow
- Dart
- Firebase (Backend as a Service)
- Flutter
- Git
- Object-Oriented Programming
- React Native
- UI: GlueStack UI, NativeBase
